

D&D Facility Characterization Interview Checklist

ID No.: T-771M
Date: 10/09/00

Page 1 of 2

Check List for - Title: D&D Facility Characterization - Interviews

CRITERIA: Δ *D&D Characterization Protocol*, RFETS MAN-077-DDCP, Rev. 0
 Δ *Facility Disposition Program Manual*, RFETS MAN-076-FDPM
 Δ RFETS Radiological Safety Practices, January 12, 1998

Facility Name & Type (1, 2, or 3) T-771M, Type 1 Facility, Telecommunications Network Operations Center.
Personnel Interviewed (Name & Title/Function) Don L. Cox, Mechanical Engineer V, D&D Closure

-- Y/N --

Does a current WSRIC exist for the facility? N

If so, are there exceptions to the WSRIC as written?..... No Exceptions

COMMENTS (incl. WSRIC contacts)

WSRIC Contact is James M. Schoen who is in charge of the WSRIC Reports, T130J, X3579, C-83.

Are rad surveys available that indicate current status of the facility? N

Are historical rad surveys available that indicate historical status, or evolution, of the facility? N*

COMMENT N* According to Sarah J. Roberts, X3008, ARCD, T771Q, any

Historical data, which is probably at the Federal Center, would not be adequate for unrestricted release (i.e. Pre-Demolition Survey or Property Release Evaluation). New monitor surveys would have to be taken.

Is an HRR available for the facility?..... N

Do any other reports exist beyond the HRR (e.g., spill reports, reportable incidents, etc.) that further

Characterize the facility relative to chemical &/or radiological contamination? N*

Are engineering drawings (esp. "as-builts") available?..... N*

* Engineering as-built drawings are not available, but facility room drawing/sketches are available.

Are any non-conformances or issues with the facility status currently being tracked in PATS? N

If so, what are the issues (note in Comments, below)?

COMMENTS N* The T-771M Trailer sits on IHSS/PAC 700-143 and/soils, as per, Nick Demos, ER

Characterization/HRR Manager, X4605, Therefore, the T-771M land/soils has CERCLA concerns.

Engineering drawings, as-builts, do not exist for the T-771M facility, but a Facility Planning sketch does exist. This facility should not contain any lead-based paints because the facility is only approximately 1 year old.

Have any types of chemical characterization, incl. Asbestos, been performed recently?..... N*

If so, what types of characterization were performed (note in Comments, below)?

COMMENTS N* No asbestos characterization data exists for Trailer T-771M Office Facility, according to Bret Clausen, X, Building 130, Room C-252. The asbestos data reports are located in

Cubicle 273, of Building 130 and the reports are under the control of Bret Clausen with Rae Eklund

As backup contact for the asbestos reports. T-771M is new enough (1 year old) that it probably does not contain any asbestos.

**D&D Facility Characterization
Interview Checklist**

ID No.: T -771M

Date: 10/09/00

Page 2 of 2

What timeframe did the interviewee work in the facility? N/A. T-771M is a Telecommunications Network Operations Center.

Has the building configuration changed since you worked in the building? If so, in what way?

No, the facility is still a Telecommunications Network Operations Center.

What types of equipment were in the building during the interviewee's time there? N/A. T-771M was installed as a Telecommunications Network Operations Center.

Where was the equipment located? (specific rooms/areas) Throughout the small dedicated Telecommunications Network Operations Center.

Were any radioactive materials or metals handled in the building? If so, what types? No, none

Which equipment handled radioactive material? N/A

Were any chemicals handled in the building? If so, what types? N/A

Did any spills or uncontrolled releases of radioactive materials or chemicals occur while you were working in the facility? No, none.

Were these spills/releases cleaned-up? How were they cleaned-up? N/A

Where did these spills/releases occur? N/A
